Basically, we are a couple of guys that spent a lot of years involved in the fire service that like fire trucks. Billy Braun lives in Genesee, PA and owns most of the apparatus that you'll see featured on this site. Mike Healy now lives in Sebring, FL after spending most of the last 30 years living in the Southern Tier of NY state and North Central Pennsylvania. Billy and Mike have been friends for close to 30 years and actually met as the result of a friend of Billy's stumbling across Mike with his 1949 American LaFrance 700 Series pumper at a car show in Angelica, NY in 1987 shortly after Billy had bought his 1954 American LaFrance, Franklin-1. The rest as the say, is history (literally).

In addition to fire apparatus, Billy enjoys collecting emergency lights and sirens, in particular those manufacturer by Federal Sign and Signal as well as Sterling. Mike and Billy both also collect Gamewell Fire Alarm equipment and have a number of various types of street boxes as well as gongs, tape registers and an indicator.
